

Application Serial No. 10/810,611
Response to Office Action mailed February 16, 2006

invention claims in US 10/626,708 as this co-pending application requires the presence of one or more CNS stimulating component, whereas the presently claimed invention does not.

Moreover, Applicants note that with the amendment and remarks herein, this application should be in position for allowance. In contrast, US 10/626,708 is still being examined. Therefore, Applicants request that the Examiner withdraw the obviousness-type double patenting rejections over US Application No. 10/626,708 and permit this application to proceed to allowance.

Acknowledgment that this rejection has been withdrawn is requested.

Applicants submit that the present application is now in condition for allowance.

Early notification of such action is earnestly solicited.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
Norman F. Oblon
